Letter From The McKinleys:

We can appreciate the feelings of many of our fellow breeders when they made the decision to disperse their herd. With the decision goes a little bit of our dreams and hopes; of always that next calf will be a better one.

We have always believed in the theory that a cow should have a calf and show a profit. With the better ones being retained or sold as breeding stock at a premium over pound price.

Our cattle have been raised in a practical manner with the cow herd being maintained on pasture, hay and corn stalk fields. Every cow had to breed and have a calf or she was sold on the market. Almost all the purebred females have been bred here.

We have gain tested and weighed the calves to help us improve; also the last 5 Herd Sires used were production tested.

We have shown and sold cattle with many winners that have been produced here.

Certainly we have enjoyed our Shorthorns, and we will miss them; but the valued friendships made among the Shorthorn people will always be treasured. Being elected as Iowa Short-horn and Polled Shorthorn Sec. and Treas. we hope to visit many herds and help you to promote your Shorthorns. They are truly a breed to be proud of.

We take this opportunity to invite you all to our dispersion. The cattle will be honestly presented, in their working clothes, and we will let them speak for themselves.

Cordially,
NO-BO-KA Family

Nonny, Bob, Sharon Ka, Debbie and Cheri
